## Open Recalls

Recall #: CAN011 | 011 - Remedy Notice - Certain 2007-2010 model year Camry vehicles - Pedal Modification, Floor Modification and Brake Override

Recall Date: 2010  
Mar 05

### Recall Description

The condition involves the potential risk for the accelerator pedal to get stuck in the wide open position due to an unsecured or incompatible drivers floor mat. A stuck open accelerator pedal may result in very high vehicle speeds and make it difficult to stop the vehicle, which could cause a crash, serious injury or death. Toyota Canada has confirmed that the potential risk for accelerator pedal entrapment due to an incompatible or unsecured drivers side floor mat in vehicles included in the safety improvement is not due to a vehicle defect. It has also been determined that genuine Toyota Canada drivers side all weather floor mats sold and distributed by Toyota Canada for the affected vehicles are compatible with the specific vehicle model for which the floor mat was designed and intended to be used. Also, when the correct Toyota drivers side all-weather floor mat is properly secured using the retaining clips provided with the vehicle and installed following the proper installation instructions, there is no risk of pedal entrapment.

### Remedy

To help avoid the risk that an unsecured or incompatible drivers floor mat can interfere with the accelerator pedal on your vehicle, any Toyota dealer will provide certain vehicle improvements for your vehicle. The improvements will involve modification to both the accelerator pedal and the floor surface in the drivers foot-well. As an additional measure, independent of the vehicle-based improvements indicated above, Toyota will also install a newly designed brake override system in your vehicle to provide an extra measure of confidence. This system will cut engine power in case of simultaneous application of both accelerator and brake pedals at certain speeds and driving conditions.

This recall was open as of the date/time that this report was generated. For more information, or to find out if the recall has been closed, please contact TOYOTA or visit [Toyota's website](https://www.toyota.ca/toyota/en/owners/recalls). (<https://www.toyota.ca/toyota/en/owners/recalls>)

**ICBC Disclaimer**

The information supplied by ICBC is a report of the vehicle's status and the vehicle's claims history. Vehicle status shows whether a vehicle is qualified to be licensed and is used to track:

- vehicles sold by insurance companies as salvage
- salvage vehicles which have been rebuilt, inspected, and relicensed
- wrecked vehicles that have been decommissioned and can only be resold for parts

The vehicle status may not represent the vehicle accurately for a number of reasons, including a written-off vehicle that hasn't been reported to the B.C. vehicle registry or a vehicle with major damage that was repaired by its owner. The vehicle claims history is a report of vehicle damage and includes repairs paid by ICBC and outstanding damage estimates. It may be incomplete for various reasons, including the owner did not make a claim to ICBC or ICBC has denied the claim. In addition, the estimate information may not necessarily reflect the actual cost of repairs, list the area of the vehicle that sustained the greatest force of impact, or indicate the primary area of damage.

Consumers are encouraged to read ICBC's full statement of limitations at <http://apps.icbc.com/registration/vchr/Limitation.html>.

ICBC recommends the vehicle be inspected by a qualified mechanic to obtain a more complete assessment of the vehicle's condition.
